Barnard Thompson
Real Property Services Division
King County Administration Building
500 - 4th Avenue, Room 500
Seattle, Washington 98104

Dear Mr. Thompson:

Barnard

Seattle Public Utilities (SPU) is planning a Pump Station Rehabilitation project in the vicinity of property owned by The King County Airport. The project will take place between Airport Way South and County Road #57 (East Perimeter Road), across from King County Airport Building #7575.

SPU needs to install an on site emergency generator at an existing pump station to prevent overflows and sewer backups in the event of power failure or equipment breakdown. To recognize the County's interest in the subject property, SPU is requesting a King County Construction Permit to perform the work required. Construction will be limited to the area shown in highlight on the enclosed drawings, and is expected to get underway the Summer of 2001.

Should you have any questions concerning this request, please call me at (206) 684-7563. I will be happy to meet with you to discuss the project in more detail. Otherwise, please grant to SPU the appropriate rights required for this project to proceed.

With regards,

S. Dwayne Eickson
